

A guide to the General Data Protection Regulation (GDPR)

The **first steps** you should take to achieve **GDPR compliance**.

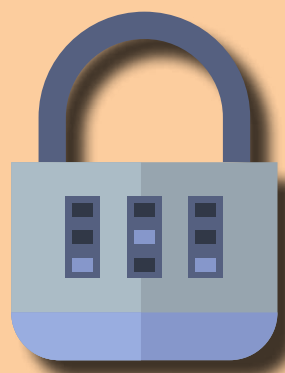

DISCOVER

What personal data you have, where it resides on your systems and who has access to it.

CONTROL

and manage how personal data is used and accessed, and who uses and accesses it.

ESTABLISH

security controls to prevent, detect and respond to vulnerabilities and data breaches

ACTION

data subject requests and keep the required documentation.

ANALYSE

your data and systems, stay compliant and reduce the risk.
